Vogue Collection Furniture

The Vogue Collection

Gorgeous-looking plasma screens deserve equally gorgeous stands, and that's where Vivanco comes in. The Vogue range of stands is designed to support plasma screens up to 50in, and has style in abundance.

This practical, but stylish TV stand has three toughened safety glass shelves in piano black, capable of accommodating up to a 50in plasma screen, with room for VCR, DVD player, CD player, AV receiver and record player on its shelves - and there is still room for more.

The cable management facility built into the back of the stand fully conceals all AV cables and protects them from damage. The Vogue's sturdy 'D-shaped' design fits neatly into corners of a room, with ample shelf height and width for any AV equipment. A reduced shelf depth of 400mm has been thoughtfully applied with plasma screen users in mind, making the Vogue a welcome addition to any home cinema set-up.
